Brian,

Sorry for any confusion but I'm plan on visiting Radford for the plume testing next week, October 4<sup>th</sup> & 5<sup>th</sup>

Brian,

I wanted to check in with you before things got too busy at Radford. I am the Hazardous Waste State Program Manager for Virginia and I have been working with Ashby and other permit writers on certain aspects of the renewal permit for the Radford OBOD procedures. Ashby told me about the plume testing this week and next and I am really interested in attending.

I plan on being in the area by Monday night and attending testing on Tuesday. I was wondering if you think it would be beneficial to stay Wednesday as well? Do you anticipate another round of testing on Wednesday? Do you think I should stay for two days?

Thank you and I am very excited to see the OB and drone testing in action.

Best,

Cassie McGoldrick
